EXPERIENCE

BUCKHILL SOFTWARE, Zagreb, Croatia — *Frontend Developer*

APRIL 2022 - PRESENT

Write working code from general specifications using best coding practices.

Automated testing methods using Jest and Cypress.

Manage code deployment

Document all code according to common development best practices and create technical documentation of project work to facilitate knowledge sharing.

Peer code reviews

Analyse, diagnose and debug faults, errors and bugs (e.g: client incidents).

THE BULB AFRICA, Lagos, Nigeria — *Frontend Developer*

SEPTEMBER 2020 - FEBRUARY 2022

Translate designs to code and consumed restful APIs

Optimized components for maximum performance across web-capable devices and browsers

Maintain software workflow, versioning, and testing during development and address any bugs.

ENOV8 SOLUTIONS, Lagos, Nigeria — *Frontend Developer*

FEBRUARY 2020 - AUGUST 2020

Translated designs and wireframes into high-quality code

Built reusable components using Vue concepts and consumed APIs.

SKILLS

UI designs to code

Responsive Design

API integration

State Management

Payment gateway integration

Postman, Swagger to test endpoints

Git versioning

Docker

Authentication

Authorization
